2019-2020
PROSPECTUS

Meet the smart people building smart cities
First convened in 2007, the Meeting of the Minds Annual Summit is the longest running smart cities conference in North America. What began as a single 2-day summit in Oakland, CA has grown into an internationally recognized non-profit with world-class events and an unparalleled, year-round digital platform.

Our mission is to bring together urban sustainability and technology leaders to share knowledge and catalyze lasting alliances. We foster person-to-person and city-to-city learning by spotlighting projects and practitioners working on urban solutions throughout the world.

The staff and Board of Directors of Meeting of the Minds includes world-renowned experts in cities and the cross-sectoral, cross-disciplinary knowledge necessary to affect real change in the future of smart, sustainable, and equitable cities. They bring skills in public policy, technology, research, curation, event planning, logistics, and publishing.

Meeting of the Minds thanks and acknowledges the support of our current and past sponsors, including this partial list:

**Foundations**
- Annie E. Casey Foundation
- Barr Foundation
- Burton D. Morgan Foundation
- Ford Foundation
- Lincoln Institute of Land Policy
- Living Cities
- New Economy Initiative
- Paul G. Allen Philanthropies
- Robert Wood Johnson Foundation
- Rockefeller Foundation
- The California Endowment
- The California Wellness Foundation
- The Cleveland Foundation
- The JPB Foundation
- The Kresge Foundation
- Volvo Research and Educational Foundations

**Global Technology Leaders**
- Cisco
- Dassault Systèmes
- IBM
- Itron
- Microsoft
- Oracle
- Philips Lighting/Signify
- Schneider Electric
- Siemens

**Transportation Leaders**
- Bombardier
- Cubic
- Daimler/Car2Go
- Ford
- JUMP Bikes/UBER
- Keolis
- Lyft
- Toyota
- Zipcar

**Healthcare**
- Kaiser Permanente
- Sutter Health

What do we do?
Meeting of the Minds connects people and ideas through digital and in-person events and resources.

Conferences
We organize two conferences each year. First, our Annual Summit, which convenes 450 attendees for 3 days to discuss a cross-disciplinary, cross-sectoral agenda of urban challenges and solutions. Our next Annual Summit will be in Phoenix from February 19-21, 2020.

Our CityMobility Summit, which first convened 150 attendees in Boston in 2017, then again in Ann Arbor in 2018, focuses on the future of transportation, freight, autonomous vehicles and other mobility-related topics. Our next CityMobility Summit will be in Stratford, Ontario on May 20, 2020.

Roundtable Discussions and Workshops
Meeting of the Minds has a long history and extensive experience in facilitating one-day, or even one-evening, events throughout North America.

Our next workshop will take place in Sacramento, CA in fall, 2019. This half-day event will convene 120 leaders to continue the discussion from our 2018 Annual Summit, which also took place in Sacramento.
Meetups

Since 2013, the San Francisco Urban Sustainability Happy Hour has met on the first Thursday of each month, hosted by the Meeting of the Minds staff and Board members. The event is a unique way for people to network and discuss their work on the future of cities in a casual atmosphere. The group now boasts over 2,400 members throughout the Bay Area.

Since the founding of the San Francisco meetup, Meeting of the Minds has helped facilitate the founding of similar meetups in New York, Los Angeles, Portland, Seattle, Sacramento, Toronto and Detroit.

Webinars

Each month the Meeting of the Minds team organizes a free, open to the public, online event spotlighting an innovative smart cities initiative. The format includes a 30-minute presentation by the project’s leaders, followed by a 30-minute Q&A session with the live audience. Since the webinar program began in 2013, its popularity has grown every year. On average, each webinar attracts 300-600 registrants.

Print and Digital Publishing

As part of our mission for city-to-city and person-to-person knowledge sharing, Meeting of the Minds maintains an ambitious publishing schedule throughout the year, with 2-4 new, exclusive articles published each week. These articles are written by urban practitioners and smart city thought leaders with editorial support from the Meeting of the Minds digital team. A daily email to 25,000 people on our email list announces the publishing of each, individual article and reaches the inboxes of industry VIPs throughout the world.

The Annual magazine, a glossy publication designed, printed, and distributed exclusively for the attendees of the Meeting of the Minds Annual Summit, features the most popular or most interesting articles of the past year. Now in its sixth edition, digital copies of the magazine are available for download through the Meeting of the Minds website.
Who is our audience?

Meeting of the Minds events convene hundreds of VIPs each year. Our digital platform reaches hundreds of thousands. Who are these people? And how are they connected to the future of smart and sustainable cities?

Network surveys

Based on extensive online surveys and event questionnaires, the demographics of the Meeting of the Minds audience can be described with great confidence. In general, our audience crosses sectors, silos, and genders in a way that is rarely seen in the technology, urban, or sustainability industries. Our work reaches public and private sector leaders, as well as academics, NGOs and foundations.

Attendees at our events often remark on the cross-disciplinary character of our attendees and content. This broad coalition of stakeholders at our events creates a fertile space for new alliances and partnerships, and creates enormous value for our partners and attendees.

The unique make-up of our audience and agendas is one reason Meeting of the Minds has become one of the most successful and longest-running organizations in the smart cities niche.

The typical breakdown of attendees at our in-person and digital events looks like this:
How do we make sure the right people are in the room?

Historically, certain groups have been excluded from smart city events - either by design, negligence, or both. Meeting of the Minds has a deep commitment to demographic inclusion, and we ensure this outreach not just through a free and open digital platform, but also through a scholarship program for all of our events.

Roughly half of all attendees at our in-person events attend our events for low or no cost - either as scholarship recipients, volunteers, or as presenters. Some even receive financial support to offset the costs of travel and onsite accommodations. Public sector leaders, entrepreneurs, non-profit executives, persons of color, and women are encouraged to apply for scholarships through a competitive application on the Meeting of the Minds website.

Moreover, we make significant efforts to prioritize a diversity of gender, race, and perspectives in our speakers and workshop leaders. In an atmosphere of inclusion and diversity, discussions become more fruitful, and our work becomes more effective. There is always more work to be done on inclusion, and that work continues to be a priority for Meeting of the Minds.

“How I first attended in Toronto, I learned about autonomous and connected cars, and the data that will come off those vehicles. Since then we’ve become a connected-and-autonomous-car testing center in Ontario, Canada — and it all is a direct correlation back to what I learned at Meeting of the Minds. Jessie and Gordon do a great job of marrying up individuals. They start a conversation that goes on throughout the year. And I now have a network of individuals and experts who play an integral part in how I’m making decisions for my community.”

— Mayor Dan Mathieson, Stratford, Ontario

“Since then we’ve become a connected-and-autonomous-car testing center in Ontario, Canada — and it all is a direct correlation back to what I learned at Meeting of the Minds. Jessie and Gordon do a great job of marrying up individuals. They start a conversation that goes on throughout the year. And I now have a network of individuals and experts who play an integral part in how I’m making decisions for my community.”

— Mayor Dan Mathieson, Stratford, Ontario

2018 SCHOLARSHIPS

- 63% Female
- 33% People of color

SURVEY RESULTS

- 93% Met a new friend or ally at Meeting of the Minds
- 99% Would recommend Meeting of the Minds to a colleague
### How can you get involved?

**Sign up**
Join our email list to receive regular updates about our events and resources.

**Attend**
We convene over twenty events each year. Visit our website at [MeetingoftheMinds.org](http://MeetingoftheMinds.org) and click on “Events” to see what’s next.

**Sponsor**
Sponsors of Meeting of the Minds enjoy a long list of benefits, and sponsorship packages can be tailored to any budget and any priority. Included here is a partial list of packages and benefits - please contact Jessie Feller Hahn, our Executive Director, for a customized benefits package.
